Webinar Description

90-minute webinar

This webinar will present the benefits of non-directive and structured play therapy as well as the foundations for using play therapy with sensory processing issues. The concept of a sensory play diet will be defined and explored. Play therapy inventions designed to help with sensory issues will be explained and participants will have the opportunity to understand how to create a sensory friendly play room.

Learning Outcomes

By the end of the workshop you will be able to:

- Identify play therapy interventions that can be used to address sensory processing challenges.
- Describe the eight sensory processing areas and causes of sensory challenges.
- Outline a sensory play therapy diet to help children with sensory struggles.
